

What is Geography? What do you learn in Geography?

We have been learning OS maps which are ordnance survey maps.
Year 3

We learn about maps and globes.
Year 1

We find out about the world.
Year 1

We learn about the world, countries and capital cities.
Year 4

We learn about Sheldon.
Year 2

In geography we learn about OS maps and Birmingham.
Year 3

We learn about places and cities.
Year 2

We have been learning about different countries and what they have in them and where they are and if they are near the Equator.
Year 4

We learn about hot and cold places.
Year 1

We mostly learn about topics. We are learning about the polar regions like Antarctica and the Arctic.
Year 6

We learn about Carding Mill Valley. We learnt that rivers have an Estuary, delta in the lower course, a meander, source and spring.
Year 5

What we do is we look at the earth and learn about countries.
Year 3

We learn about the UK and its regions and countries. We learn about grid references.
Year 3

Learning about the polar regions. And what survives in the polar regions.
Year 6
